## LONG THROW LOCK

Elongated Keep

Built to Last

Easy to Fit

Complete with 5 Keys

6 Pin Security Cylinder

Complete with all Fixings

Free 28mm Flat Drill Bit Inside

Gate Pro Long Throw Lock available as Double Locking (keyed each side) or as Latch Locking (key on the outside only, with a quick release button on the inside). The Elongated Keep allows the lock to work as the gate moves with changes in the weather. These Locks come complete with all necessary fixings and are available in 50mm and 70mm cylinder projections.

**Keyed alike** versions now available. All KA1 locks come with the same key pattern. Enables you to use one key for numerous long throw locks, and across both double locking and latch locking types.
